

PRESENTATION LETTER:

Hello, my name is Marcos Gomez Esquivel:

I am a person who is very motivated by continuous improvement and desire to continue learning, I stand out for my good presence, punctuality, camaraderie, and the desire to improve myself day to day. I have acquired a solid background in design and development software, AI, BI, law, cybersecurity, and the implementation of technological solutions in different areas. My experience includes the development and creation of applications and systems sophisticated; through my knowledge of analysis, I have developed the ability to interpret large sets of data; I have participated in UX/UI designs so that users can navigate and understand applications better, but what What sets me apart is my ability to integrate my skills into any field in which I develop.

I can quickly adapt to environments and changing conditions, have a meticulous approach to resolving problems, and ability to work as a team. Can work in any position they choose. I appreciate your time and consideration in reviewing my application.

Greetings.

MARCOS GOMEZ ESQUIVEL

Full-Stack Engineer  
Designer UX/UI  
Data Scientist

My professional career began as a notarial and real estate legal secretary. However, in August 2021, I discovered my passion for web design and development, and since then, I have immersed myself in this fascinating world of technology. My approach is not simply to solve problems, but to create innovative solutions that respond to changing market demands.
